

the Congress will do, is set this very minimum national standard so that wherever you drive—if you live in Cincinnati, for example, you might be in Kentucky one minute and in Indiana the next minute. We all move around from State to State. If you live in this area, you might be in Washington, DC, and then Virginia, and then Maryland. We move around. There will be some minimum standard so a driver and passengers can be assured that it will be illegal for a driver who is coming at them or who is on the other side of the road to test over .08, no matter where they are, on what road, anyplace in these great 50 States.

Let me give some more personal testimonies or examples. We have talked to Ken Betz, whom I have known for a number of years in many capacities. He is now the director of the Coroner's Office in Montgomery County, OH. Of the 36 alcohol-related driving fatalities his office has seen in just the past year, seven of these involved drivers who had a blood alcohol content of .08 or less. I will repeat that. In Montgomery County, OH, there were 36 alcohol-related driving fatalities in the last year. Of those 36, seven of them involved drivers who had a blood alcohol content of .08 or less.

One driver lost control of his car late at night and was killed. His blood alcohol level was .06. Another driver was killed when he ran into the back end of a stopped construction truck. His blood alcohol level was under .06. Another person was driving a motorcycle and turned left into an oncoming Ford Mustang. He wasn't wearing a helmet. He was killed. His blood alcohol content was .07. Another driver went off the right side of the road, down into a culvert. He and a passenger were both killed. His blood alcohol level was .07.

These are actual cases from Montgomery OH, in the last year.

Another driver lost control and struck several steel poles before plowing into a stopped car. He was killed. His blood alcohol level was .08.

Mr. President, people who drive at a .08 blood alcohol level are clearly impaired. There is absolutely no doubt about it. The risk of being in a crash rises gradually with each increase in the blood alcohol level, beginning at .01. But when a driver reaches or exceeds the .08 blood alcohol level, the risk rises very, very rapidly. At .08, a driver's vision, balance, reaction time, hearing, judgment, and self-control are all seriously impaired.

It is interesting, Mr. President, as this debate continues, and as we read some of the information that is put out by the alcohol industry. They can't really seriously cite or argue that anyone who tests .08 is not appreciably impaired in their reaction time, in their concentration, in their judgment. No one can say that. We all know that for a fact. Moreover, at .08, critical driving tasks like concentrated attention, speed control, braking, steering, gear changing, and lane tracking are all affected.

The Senate overwhelmingly passed our legislation. I hope the whole Congress will pass it. It would help America crack down on these impaired drivers and make our roads safer for our children and for our families. That is why I will continue to fight for this lifesaving measure throughout the legislative process.

THE VERY BAD DEBT BOXSCORE

Mr. HELMS. Mr. President, at the close of business Friday, March 27, 1998, the federal debt stood at \$5,547,110,706,640.96 (Five trillion, five hundred forty-seven billion, one hundred ten million, seven hundred six thousand, six hundred forty dollars and ninety-six cents).

One year ago, March 27, 1997, the federal debt stood at \$5,378,489,000,000 (Five trillion, three hundred seventy-eight billion, four hundred eighty-nine million).

Twenty-five years ago, March 27, 1973, the federal debt stood at \$458,073,000,000 (Four hundred fifty-eight billion, seventy-three million) which reflects a debt increase of more than \$5 trillion—\$5,089,037,706,640.96 (Five trillion, eighty-nine billion, thirty-seven million, seven hundred six thousand, six hundred forty dollars and ninety-six cents) during the past 25 years.

MISSOURI HOME SCHOOLERS

Mr. ASHCROFT. Mr. President, I rise today to congratulate Missouri home schoolers who will observe Missouri Home Education Week, May 3–May 9, 1998. As a parent and former educator, it is a privilege for me to participate in celebrating this event.

As a nation we promote education as a key to success. A good education is associated with responsible, intelligent, and productive citizenship. To maintain greatness as a nation, we must strive for excellence as individuals. And the standard of excellence is largely set by our nation's leaders—especially those in the home. Training in the home that guides children in setting the highest standards for their lives is essential to the continuity of morality in our culture. I am encouraged by all parents and students who take on the task of education in the home.

There is no bigger responsibility than being a parent. It is my desire that parents be role models to their children. Teachers have always had a place as role models in our society. Each of us can probably remember a teacher who pushed us to achieve more and to reach higher. We are thankful for the leadership of those who promote education and serve as role models. So for home schooling parents, may you find inspiration in performing the dual role of parent and teacher, and may you be doubly rewarded for your efforts.

In Missouri, home schooling has had great success. I look forward to the

continued contributions that Missouri home schoolers will have in education and to the positive impact home schooled children will have in Missouri's communities and across the United States.

HONORING DR. DAVID B. HENSON, THE SEVENTEENTH PRESIDENT OF LINCOLN UNIVERSITY

Mr. ASHCROFT. Mr. President, I rise today to honor the new Lincoln University President, Dr. David B. Henson. On April 4, 1998, Dr. Henson will gather with friends, family, colleagues, faculty, and students to be inaugurated as the seventeenth President of Lincoln University which opened its doors on September 17, 1866, in Jefferson City, Missouri as the Lincoln Institute.

Dr. Henson has a twenty-five year history of service to higher education. The list of educational institutions he has served is a prestigious one. At Howard University College of Medicine, Dr. Henson served as the Acting Chairperson in the Department of Biochemistry, the Assistant Dean of Student Affairs, and an Associate Professor of Biochemistry. At Yale College, he was the Dean of Student Affairs and the Associate Dean. Dr. Henson's work in the fields of science is commendable. He was a Lecturer in Molecular Biophysics and Biochemistry and a Fellow in Timothy Dwight College at Yale University, a Professor of Chemistry at Alabama A&M, and a Provost and Professor of Chemistry at the Broward Campus of Florida Atlantic University. Furthermore, at the University of Colorado at Boulder, Dr. Henson held the position of Associate Vice Chancellor of Academic Services and Student Support Services. Dr. Henson also served as Vice President of Student Services at Purdue University.

President Henson is actively involved in state and local community services. He is an honorary member of Purdue Iron Key Society; a member of the Executive 21 Continuous Quality Improvement Steering Committee; a steward at St. John's AME Church in Huntsville; on the National Committee on International Science and Education; on the Education Committee, U.S. Space & Rocket Center; and on the Board of Huntsville Boy's and Girl's Clubs of America.

Dr. Henson contributes his services to Missouri organizations as well. He currently is the Treasurer of the Council on Public Higher Education of Missouri; on the Board of Directors with the Jefferson Chamber of Commerce; on the Board of Governors at Capital Region Medical Center; a member of the Steering Committee for the River Rendezvous; an active member of the Rotary Club of Jefferson City; and a member of the Dr. Martin Luther King, Jr. Central Missouri Celebration Planning Committee.

To his credit, Dr. Henson has received the African Americans Who Make a Difference Award, the Howard

University College of Medicine Student Council's Award for Excellence in Teaching, the George Washington Carver Research Foundation Student Award, and an American Council on Education Fellowship.

For this lifetime of service to education and commitment to community involvement, I rise today to recognize and salute Dr. David B. Henson as he becomes the seventeenth President of Lincoln University. I think I speak for all Missourians when I say that we are grateful that he has chosen a Missouri university to continue his service to higher education.

MESSAGES FROM THE HOUSE

At 12:07 p.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 3246. An act to assist small businesses and labor organizations in defending themselves against Government bureaucracy; to ensure that employees entitled to reinstatement get their jobs back quickly; to protect the right of employers to have a hearing to present their case in certain representation cases; and to prevent the use of the National Labor Relations Act for the purpose of disrupting or inflicting economics harm on employers.

H.R. 3310. An act to amend chapter 35 of title 44, United States Code, for the purpose of facilitating compliance by small businesses with certain Federal paperwork requirements, to establish a task force to examine the feasibility of streamlining paperwork requirements applicable to small businesses, and for other purposes.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. BURNS:

S. 1879. A bill to provide for the permanent extension of income averaging for farmers; to the Committee on Finance.

By Mr. CLELAND:

S. 1880. A bill to provide States with the authority to permit certain employers of domestic workers to make annual wage reports; to the Committee on Finance.

By Mr. LIEBERMAN:

S. 1881. A bill to amend title 49, United States Code, relating to the installation of emergency locator transmitters on aircraft; to the Committee on Commerce, Science, and Transportation.

By Mr. JEFFORDS (for himself, Mr. KENNEDY, Mr. COATS, and Mr. DODD):

S. 1882. A bill to reauthorize the Higher Education Act of 1965, and for other purposes; to the Committee on Labor and Human Resources.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. KEMPTHORNE (for himself, Mr. ABRAHAM, Mr. AKAKA, Mr. BINGA-

MAN, Mrs. BOXER, Mr. BROWNBACK, Mr. BRYAN, Mr. BURNS, Mr. CAMPBELL, Mr. CHAFEE, Mr. COCHRAN, Ms. COLLINS, Mr. COVERDELL, Mr. CRAIG, Mr. D'AMATO, Mr. DEWINE, Mr. DODD, Mr. DORGAN, Mr. DURBIN, Mr. ENZI, Mr. FAIRCLOTH, Mrs. FEINSTEIN, Mr. GLENN, Mr. GORTON, Mr. GRAMM, Mr. GREGG, Mr. HAGEL, Mr. HELMS, Mr. HOLLINGS, Mrs. HUTCHISON, Mr. INHOFE, Mr. INOUE, Mr. JEFFORDS, Mr. JOHNSON, Mr. KENNEDY, Mr. LAUTENBERG, Mr. LEVIN, Mr. LIEBERMAN, Mr. LOTT, Mr. LUGAR, Mr. MCCAIN, Ms. MOSELEY-BRAUN, Mr. MOYNIHAN, Mrs. MURRAY, Mr. NICKLES, Mr. REID, Mr. ROBB, Mr. ROCKEFELLER, Mr. ROTH, Mr. SARBANES, Mr. SESSIONS, Mr. SHELBY, Mr. SMITH of Oregon, Mr. SMITH of New Hampshire, Mr. THURMOND, Mr. TORRICELLI, Mr. WARNER, and Mr. WELLSTONE):

S. Res. 201. A resolution to commemorate and acknowledge the dedication and sacrifice made by the men and women who have lost their lives while serving as law enforcement officers; to the Committee on the Judiciary.

By Mr. LOTT (for himself and Mr. DASCHLE):

S. Res. 202. A resolution to authorize representation by the Senate Legal Counsel; considered and agreed to.

STATEMENTS ON INTRODUCED BILLS AND JOINTS RESOLUTIONS

By Mr. BURNS:

S. 1879. A bill to provide for the permanent extension of income averaging for farmers; to the Committee on Finance.

FARMERS' LEGISLATION

Mr. BURNS. Mr. President, I introduced an amendment to the Revenue Reconciliation Act of 1997 back in 1997. It extended to our agriculture producers—farmers and ranchers—the ability to average their income over a 3-year period. The amendment was included and made part of the U.S. Tax Code, but only after further negotiations, sunset the provision after 3 years which would make it run out in 2001.

Today, I would like to introduce a bill that would make income averaging for our agriculture producers permanent in the U.S. Tax Code. This bill will give our agriculture producers—farmers and ranchers—a fair tool to offset the unpredictable nature of their business.

Our man in the chair this morning from the great agricultural State of Nebraska, and the rest of us in the breadbasket of this country understand what farmers and ranchers go through. It has always been a good business and at times it is a great business. But we are going through some times now that are very stressful. As a friend of mine said the other day, there is nothing wrong down on the farm except the price. That is what we have now.

There are not very many segments of the American economy that are taking in the same amount of money for their commodity today as they were taking when World War II ended, some 50 years ago. However, they are expected to keep producing food not only in generous proportions but also the safest,

the best quality and nutritious food in the world.

What makes this Nation unique is, we not only produce it, but we have the infrastructure that allows distribution—our processors, purveyors, transportation, grocery stores, everything from the breakfast table of America all the way back to the first seed that goes into the ground is unmatched anywhere in the world. It is something of a great marvel in this country. And it is also true that every one of us alive today in this country goes about our daily business of feeding the Nation. Somewhere along the line, we are participants in this great infrastructure to deal with our own subsistence.

But basically, I want to talk about—the production level, I don't think there is a commodity today that is not hurting when it comes to the marketplace and to the whims of Mother Nature's elements that she rains down on agriculture. Agriculture production is a 7-day-a-week job as anybody that has ever worked on a dairy farm knows. I assumed that most Americans knew that, but I am finding out that I was wrong. They think milk cows take off the weekend, too, but they don't. Farming is an ongoing situation—7 days a week, 52 weeks a year. Farmers and ranchers take pride in their work. They produce as economically as they possibly can, knowing that they fall under the old philosophy that they although they sell wholesale, they have to buy retail, and they pay the freight both ways, knowing that agriculture has always been in that kind of a predicament.

Not only do they take great pride in what they produce, but probably no other segment of the American public has a greater understanding of land stewardship and the environmental problems that face our country today. Yet, very few of them are ever asked their advice on how to deal with an environmental problem. Several colleagues that serve in this body, who grew up on a farm or a ranch, certainly understand the frustration of the business. They only get paid about two, maybe three times a year. So it is a crucial time for the farm families across this country when we take a look at the situation we find ourselves in now. With the financial collapse of many Asian markets in the Pacific rim, we see wheat at an all-time low. Our corn and soybeans will suffer. As far as export trade is concerned, we export a lot more than we receive. We also see a time when we fall victim to the psychology of the market more than the market itself.

With the recent passage of the freedom to farm bill, we told farmers that subsidies were going to go away, that they were going to have to stand on their own. We also said that we would give them the tools with which to operate their farms.

Market forces are unique. We still fall victim to flood and drought, disease, new infestations which are far,
